

Our Philosophy

Journey with us to other places and eras and into the midst of our contemporary world where we bring ARTS TO LIFE. We invite you to enter a realm of illusion where everyday thoughts are pushed aside. Altering your perspective we create the opportunity for you to view the past through the eyes of that age, or the present with fresh tastes and passions.

With the aid of an outstanding faculty we show that architecture, painting, the decorative arts, cuisine, dance and music all exist in a dynamic relationship to each other and to the time that produces them. We take you into private homes and collections, present period dress, meals and entertainment and explore the ideas that fuel the dreams of the artist.

Each of the programs enclosed is designed to take you into another reality so that ARTS TO LIFE brings you to understand the dreamer and his creations.

"It is necessary, if you would be happy, to get rid of your prejudices, live virtuously, have tastes and passions, be open to illusions; for most of our pleasures we owe to illusion and woe betide those who lose them."

Discours sur le Bonheur, 1749 by Gabrielle Emilie Le Tonnelier de Breteuil, Marquis du Chatelet (1707-49), a French mathematician and philosopher.

Ten years of working with all the arts taught me the lessons I wish to share with you. ♦

Jessica Deutsch

Jessica Deutsch,
Founder and President, Arts To Life

Faculty

Gaye Blake-Roberts

Curator, The Wedgwood Museum
Staffordshire, England

Graham Child
